

Your One Tool for Labor Management

Why OpenSimSim Labor Scheduling Software is Essential to Your Restaurant

Increase profits

Manage labor costs more intelligently with respect to sales forecast. Labor will never be overbooked again. Profit is now always maximized.

Efficient scheduling

Managers will create schedules 85% quicker and spend more time running the operation.

Decrease turnover

Communication is streamlined and scheduling reliability is increased, meeting employee needs.

Improve compliance

Audit trail is kept of staff activity, ensuring record keeping compliance. Managers receive push notifications to prevent issues ahead of time.
